*HEALTHY & HAPPY PETS
NATURALLY*

Greenpet is committed to supplying and producing the finest quality natural health products for animals.

We are also dedicated to educating animal carer's to provide optimum nutrition to prevent disease and maintain a long healthy life for all species.

Most of the health conditions that domestic pets suffer from today are related to poor diet and toxicity from the over-use of drugs and chemical products.

By raising animals on natural raw food from an early age you will not only prevent many health conditions, you will see the difference in their overall health.

- Shiny healthy coat
- No bad breath
- Longer lifespan
- Reduce vet bills
- No smelly skin
- Strong healthy teeth & gums

GRASS-SICK HORSES ??

DID YOU KNOW??

Many behavioral and health problems in horses can be due to the grass they are eating. Some of the many symptoms may include:

Girthiness, aggressiveness, spooking at nothing, herd bound behavior, nervousness, laminitis, saddle fit/back problems, mud fever, head shaking/flicking, sore feet, skin problems, respiratory problems and the list goes on and on

Sadly many of these grass-affected horses become labeled as problem horses and end up being punished, sold-on or sent to the knackery.

We place so much importance on what we feed our horses in their hard feeds but often overlook what they are grazing on all day long.

Mycotoxins are produced by various types of fungi that live *inside* the plant and

are called *endophytes*. Perennial ryegrass contains endophytes which produce two very harmful myco-toxins so is one of the worst offenders. Mineral imbalances can also affect your horses temperament & general health.

Oxalate grasses such as setaria and kikuyu can interfere with calcium absorption but supplementing with inorganic calcium is not the answer to correct this. For example: Too much calcium can upset the balance of minerals such as magnesium which can then lead to further problems such as -

Magnesium deficiency which can cause skatty, spooky behaviour, sore back, muscle tightness, weakness in back end, short stepping, violent bucking, head flicking, and nervousness.

However if you do not supplement sufficiently your

horse may suffer - **Calcium deficiency** which can cause unexplained lameness, ruptured tendons, swollen facial bones (big head), loose teeth, spontaneous fractures, leg bone splints, and much more..

Horses in the wild do not feed on lush green grass all day long, they eat much more roughage and travel great distances each day therefore they do not suffer from the many health problems associated with pasture fed horses.

So before you accuse your horse of just being naughty or misbehaving ~ take a good look at your pasture. There are many grasses that are not ideal for horses such as : Rye grass, setaria, kikuyu, paspalum, blue couch, clover, and many others.

By limiting time spent graz-

ing these pastures and instead supplementing with good quality grass hay and organic minerals can bring about amazing changes to their health.

Tox-defy can be given to assist horses grazing on pastures to help bind mycotoxins.

Alleviate may be given to horses with magnesium deficiency for a calmer, safer horse.

Alleviate C can be given to horses grazing oxalate grasses or those with calcium deficiencies.

Stay tuned for more on this topic next issue....

There is an excellent website by Jenny Paterson in NZ with more info on this.

GREENPET SUMMER NEWSLETTER

ISSUE 38

DEC 2008 - FEB 2009

BACK TO ORIGINAL FISHY TREATS !!

We have had problems with mould on our last batch of fishy treats. We apologise to anyone who received these and would like to let you know that we are going back to our original sup-

plier to ensure they are of the highest quality.

Due to a massive price increase in the dried fish last year we were forced to look to alternative suppliers but have de-

ecided to return to our original supplier to maintain quality.

There will be no increase in the price.

Fishy treats 100g \$9.95

NEW PRODUCT:

TOX-DEFY
~
BINDS MYCOTOXINS FOR PASTURE GRAZING HORSES

"My name is Andrea. Pretty much, I've had a horrible immune system my whole life. My entire childhood was plagued with sinus infections, strep throat, tonsillitis, bronchitis, and everything else that came along. I felt like I was on antibiotics more than I was off of them. On top of all that I was anorexic from 5 years old through age 20...which only further killed my system. I became a drug addict around age 14 which also continued through age 20. During that time I continued battling with illness, including shingles. Even a simple cold would knock me off my feet for over a week. I am now 24, and have been chronically ill for the past 2

years. I have seen several doctors and been on varieties of meds including steroids, muscle relaxers, and pain meds. No one has been able to diagnose me...but the symptoms fall somewhere in the line of MS, Lupus, Fibromyalgia, and others. I have been bed-ridden with uncontrollable pain, swelling, numbness in my arms and legs, migraines, and many other symptoms. I could not dress or feed myself...and had to have my husband walk me to the bathroom. I had to quit working because I could not do anything for a long period of time. Just typing on the computer would cause me to lose feeling in my

arms and hands. I started taking the NCD and Agari-gold and within 5 days I felt amazing! I had more energy than I've had in years...probably in my life! I don't have a single pain anywhere in my body! I sleep through the night and feel fully energized every morning! I have now been taking the products for almost 2 weeks and continue to feel better every day!

It's a MIRACLE!"

DOG WITH HAEMATOMA

"Just a quick note to let you know that Heidi's ears are going down!!!! I have been applying the Arnica cream twice daily, and giving her the homeopathic drops three times daily. The nerve pills seem to have settled her back down. Thank you HEAPS my dog is fi-

nally returning to normal.. I was really worried that we would have to spend a fortune on having her ears drained... At this stage one ear is almost back to normal, the other has gone down by half. Still warm though. Will keep you posted." S.F

TOP PERFORMER

Angela Fergusson & 'Monique-111 Winner Grand Prix Dressage Horse of the Year 2008

"Alleviate-C, Tox-Defy and Premium New-Zealand-Horse Minerals are an essential part of Monique's programme in keeping her a healthy and (very) happy equine

athlete. These products have undoubtedly been part of our road to success!" A.F

Alleviate, Tox-defy and Premium Australian horse minerals now available from Greenpet

FEEDBACK FROM OUR CUSTOMERS

"I am writing to let you know how Elmo is going. There has been a significant change in his skin condition, fur, etc; he is even more like his old playful self. His skin did get worse at first as you mentioned it may. It also took a while for him to adjust to

the change in diet, but once he realised that was it he started to eat it. He now quite happily eats the food although I did have to put a little lamb in it as you suggested. Even the cat and then. I know it's working for him as a few days

ago he suddenly started scratching more and I quizzed the boys about it only to find they had given the dogs one of the old smackos each! They have now been thrown out. I have also been using the apple cider vinegar diluted as a rinse after

bath and also as a soak for his feet when they are particularly itchy with good results." L.R

(Naturopathic consultation for a dog with skin allergy.)

RACE WINNERS WITH RIGHT SUPPLEMENTS

NZ Metropolitan meeting on 07/08/08

"We discovered the products Alleviate and Tox-Defy a few years ago when we were told to use a magnesium supplement to help our trotters who couldn't seem to settle enough to get on with the job! One in particular had become somewhat 'unruly' and was breaking gait during the race. We found the product to have an excellent calming effect

on these horses who immediately went on to place and win races.

The other major benefit was in the spring when dung tended to be loose. Tox-Defy given the night before would firm them up by next morning. We found both trotters performed and behaved much better when on this product.

We continue to use Alleviate today on our horses.

Those that are racing, we find it very beneficial to their performance.

Last month we took out first and second in the main trot of the night at Addington, with Stringy Bark and Volare, both having improved their standing start manners immensely from using the Alleviate and Tox-Defy.

We fully recommend these products, based on the benefits we have seen in our horses general health,

manners and over-all performance."

Amanda Tomlinson & Ken Ford (Trainer)
