HEALTHY & HAPPY PETS
NATURALLY

Greenpet is committed to supplying and producing the finest quality natural health products for animals.

We are also dedicated to educating animal carer's to provide optimum nutrition to prevent disease and maintain a long healthy life for all species.

Most of the health conditions that domestic pets suffer from today are related to poor diet and toxicity from the over-use of drugs and chemical products.

By raising animals on natural raw food from an early age you will not only prevent many health conditions, you will see the difference in their overall health.

- Shiny healthy coat
- No bad breath
- Longer lifespan
- Reduce vet bills
- No smelly skin
- Strong healthy teeth & gums

HOW TO SPEND A TWO DOG NIGHT

I will address myself mostly to the rules for sleeping with two dogs. For the few who have already mastered this technique, I will later add a cat, although I urge beginners to leave the cat out. To achieve any sort of success, certain arbitrary conditions must be assumed, the first one being that you must have a king-sized bed. There is no point in lying down in anything smaller. While the size of the breed of dog is not important (people who sleep with dogs know that before the night is over everybody collects into a pile), the condition of the dogs may be. Very thin dogs, for example, are lumpier. I have selected the two-dog minimum because, as we shall see, it is the only way to stay in bed at all. The key word here is LEVERAGE. All dogs spend the night pressed tightly against their human bedfellows, but no two dogs ever sleep on the same side. This is, in

part, an expression of the "Let Sleeping Dogs Lie Principle". It is also to create leverage. Because the human being is always in the middle, held tightly in place by the dogs and by his blanket (which the dogs are sleeping on top of), restlessness and recurring cramps are difficult to handle. Here is the tip: When you first lie down, AND BEFORE THE DOGS SETTLE AGAINST EACH SIDE OF YOU, spread your legs three inches apart. Stiffen and hold out NO MATTER HOW GREAT THE PRESSURE! When the time comes to turn over, bring the legs together quickly under the now slightly slackened blanket and revolve BEFORE THE DOGS WAKE UP. As soon as you have assumed a new position, allow for those crucial three inches again; otherwise, you're a mummy for the rest of the night. NEVER SPREAD THE LEGS

MORE THAN THREE INCHES' A dog's favourite place to sleep is in the hollow created by legs too widely spread, and once settled, he and you are frozen into position until morning. (There is a way out of this trap, but it is difficult to describe without slides) Dogs who prefer to sleep on their backs MUST BE GIVEN SPACE THREE TIMES THE HEIGHT OF THE DOG AT THE SHOULDER. Dogs who like pillows may be accommodated if you sleep on your side with the legs scissored so that each dog has an ankle for a chin rest. Above all, BEWARE OF CURLING! When the curl is reversed, resulting in low growls on both sides of you. When you are ready to add a cat, position is all important. All cats prefer to sleep in hollows, but NO CAT WILL SLEEP ON THE SAME SIDE AS A DOG.

(Remember, you have only two sides). YOU MUST THEREFORE BECOME A TRIANGLE!

Do this by assuming a horizontal diver's crouch, thereby creating not only three more-or less exclusive sides but two hollows as well. With one dog at your front, and the other against your back, the cat can curl into the hollow at the back of your bent knees, separated from both dogs. All will then sleep soundly. This entire technique still needs a lot of refinement. A method that deals with early morning scratching needs to be developed, and the problem of pretending to sleep while being closely scrutinized by various animals needs to be solved.

HOW TO SPEND A TWO 4
DOG NIGHT

Trisha McCagh ~
Animal Communicator.

INTRODUCING TRISHA MCCAGH

Trisha is an internationally recognized interspecies telepathic communicator. In other words she speaks to all species of animals in their silent language. Animals think and feel just like we do and have behavioural, emotional and health problems just like we do.

She can communicate with animals to listen to what they have to say and be able to translate their message to their owners. If there are is-

sues with your pet then finding out the cause of the problem is the first step in finding solutions and creating harmony in the home. Or you simply just want to know what they are thinking or feeling to create a better understanding in your relationship.

Trisha's specialities include:

- * telepathic communication with all species
- * counselling animals

* animal healing: spiritual, reiki...

* helping you deal with dying or deceased animals

* dealing with behavioural, emotional or health issues

* chakra and flower essence therapy

Consultations: Available by appointment through Greenpet. Please send a photo of the animal with 6 questions you would like answered. The cost of this service is \$85.00

“HE IS JUST SO MUCH HAPPIER IN HIMSELF BECAUSE HE SEEMS TO BE ALMOST PAIN FREE NOW”

FEEDBACK FROM CUSTOMERS

JOINT RELIEF PACK

“I would just like to say that my beautiful cat has struggled for a long time with arthritis in the hips and lower back and other areas. I have tried so many different products and therapies but since commencing with the joint relief pack and the Technyflex his movement is finally much improved and he can now manage to jump up and down and get around in the garden and inside much better than he has for the last 4 years.

He even managed to get onto the top of the pergola which I don't think he has managed for about 5 years. In addition

he is just so much happier in himself because he seems to be almost pain free now. I can't recommend this product highly enough. PS. I would also like to say thankyou to your lovely staff who are always very professional, friendly and helpful. Thankyou very much from both of us cheers.” C.W

COMPLETE MIX

“Our 2 1/2 year old Cavalier King Charles Spaniel was diagnosed with severe Mitral Heart Valve Syndrome earlier this year. I began feeding her "Vet's All Natural" in an effort to extend her

quality of life. The effects have been amazing. She is calmer. Her coat is glossier and her eyes clearer and brighter.

An added benefit is that a slight itchy rash she had on her tummy has also disappeared. She appears to sleep more restfully also without constantly twitching etc. The medication she is on twice a day for her heart will make her heart pump more efficiently and that coupled with the change of diet we believe will extend her life considerably. Thanks to modern veterinary science, we will have our precious girl with us for longer. B.B

“THE EFFECTS HAVE BEEN AMAZING. SHE IS CALMER, HER COAT IS GLOSSIER AND HER EYES ARE CLEARER AND BRIGHTER”

EQUIMIN SUPPLEMENT

The picture below was taken in Nov 2008 and picture at right is the same horse 6 months later in May 2009.

This beautiful horse has been on Greenpet 's Equimin supplement.

Nutritional formula for horses and other livestock.

Contains: Australian dolomite, kelp, garlic, rice bran, rosehips, nettle, chamomile, peppermint, alfalfa, green barley, spirulina, blackstrap molasses and apple cider vinegar.

NUTRITIONAL ANALYSIS

PROTEIN: 10.6%
CALCIUM: 5.56%
SODIUM: 0.45MG / 50G
IRON: 122MG / 50G
COPPER: 0.28MG / 50G

DOSAGE FOR HORSES - 3-4 TABLESPOONS/DAY
PONIES - 1-2 TABLESPOONS / DAY

** AUSTRALIAN ZEOLITES NOW AVAILABLE **

We are excited to be able to offer our customers a pure Australian zeolite supplement that is not only very affordable but is extremely high quality. As you know we have been previously using a zeolite product from USA which has helped many people and animals with various health

problems. This product was very costly making it inaccessible to many people. ZeoActiv8 is a high quality liquid zeolite supplement that is suitable for human or animal use. A 50ml bottle is \$49.95 We also now have available an animal formula called ZeoVet-Tox which is \$39.95 for 50ml bottle.

NEW BOOKS

THE KEY TO CALM HEALTHY HORSES

By Jenny Paterson

This booklet is very helpful in explaining why many horses misbehave and have unexplained lameness and other health problems. Horses that are highly strung, stiff, short-stepping, hormonal, herd bound or bucking for no reason. Jenny explains how these symptoms can

all be due to problems with certain grasses that your horse may be eating. Jenny has helped many horses back to health simply by changing the pasture or getting these horses off the affected grass totally. Highly recommended reading for anyone with problems with the health of their horses. A good investment for anyone with horses.

WORK WONDERS

By Dr Tom Lonsdale

Dr Tom Lonsdale inspires us to see a dog's dietary needs from a dog's perspective, taking account of nature's teachings, easily understood science and sound common sense. Eight easy-to-read chapters lead us through the practical essentials of dog feeding including how to source, store and prepare raw food.

Risk management, junk-food induced diseases afflicting modern pets as well as the epidemic of canine oral disease and 'dog breath' is explained. Work Wonders empowers readers to transform their dogs' health. A great easy to read book that every dog guardian should read. Only \$16.95
