HEALTHY & HAPPY PETS
NATURALLY

Greenpet is committed to supplying and producing the finest quality natural health products for animals.

We are also dedicated to educating animal carer's to provide optimum nutrition to prevent disease and maintain a long healthy life for all species.

Most of the health conditions that domestic pets suffer from today are related to poor diet and toxicity from the over-use of drugs and chemical products.

By raising animals on natural raw food from an early age you will not only prevent many health conditions, you will see the difference in their overall health.

- Shiny healthy coat
- No bad breath
- Longer lifespan
- Reduce vet bills
- No smelly skin
- Strong healthy teeth & gums

ANIMALS AND STRESS

Animals suffer from stress, fears, anxiety, nervousness and tension just like we do. But there are ways in which you can help them to cope with these stresses.

Dogs and cats may become nervous, anxious or hyper-active due to preservatives in food, so changing them to a natural fresh food diet that is free from preservatives is the first step in helping them.

Horses are prey animals so it is natural that they can be scared of unknown things but some horses are more nervous than others, and this can make the difference between a calm ride and a very tense ride. A calm horse is a happy horse!

We have a variety of natural remedies to help dogs, cats and horses with all forms of stress.

Herbs can be used to help physically calm the body

down so that the animal is better able to cope in stressful situations.

For dogs & cats choose from - **Nerve tonic capsules or Herbal CAL tonic** (feline and canine formulas).

For horses we recommend- **Herbal Equine Relaxa**—this is ideal for horses that tend to be nervous and spook often.

Individual dried herbs can also be added to feed regularly to calm horses such as chamomile. Herbs can be used regularly or just prior to riding.

Homeopathy is an energetic medicine which can help with various emotional issues such as nervousness, anxiety, persistent worry and fears.

Homeopathic ANX for animals that are tense and nervy.

Homeopathic PCALM for stress.

Homeopathic GR for grief and the stress associated with the loss of a companion or loved one.

Vitamins and minerals can help to support the nervous system.

For dogs and cats -

Pet Ark Calm is a nutrient formula that can be added to food daily to help calm nervous or anxious pets.

For horses -

Hi Form HerbaNerve can be added to horses feed daily or again used as needed to naturally calm anxiety. This supplement will not swab.

Alleviate is an organic magnesium supplement that is ideal to use prior to shows, events, etc.. To help reduce jitters and to keep horses level headed. Can

be used daily and will not swab.

Flower essences work on an emotional level to help correct negative emotions such as fears, anxiety, panic, etc..

Fear and terror—for fear of storms, fireworks, etc.

Separation Anxiety—for animals that can't be left alone.

Crisis Remedy—For animals that tend to panic in certain situations.

Aroma-calm mist spray is an aromatherapy spray that can be sprayed over bedding or onto animal's back to help calm them down.

When used in conjunction with natural training techniques, these natural remedies can help to keep your animals calm and happy.

FEEDBACK FROM CUSTOMERS

“HIS MOVEMENT IS FINALLY MUCH IMPROVED AND HE CAN NOW MANAGE TO JUMP UP AND DOWN ”

“HE DOESN'T SCRATCH ANYMORE AND HIS JUMPING OUT OF HIS SKIN. ”

“HE IS HAPPY ENERGETIC AND A LOT MORE AGILE AND MOBILE. ”

FLEEZE SUPPLEMENT

“Tuppence is a Bichon Friese x ShiTzu, and - this is unbiased - absolutely superb of temperament and one of the best little dogs anyone could wish for. We're part of a program and visit sick kids in hospital. From early on however, Tupp had "the Itches" and drove us mad. Finally, a vet asked "What flea treatment are you giving her?" We replied that she didn't have fleas, to which the response was "That wasn't the question!" Hmmm. We followed the vet's advice and put Tupp on the most horrendously expensive flea treatment which involved squeezing some stuff between her shoulder blades and rubbing it in. Her coat at that site immediately went brittle and it was obvious it didn't agree with her - after just one treatment! And she still itched! Caroline Pope is Tupp's CS Therapist and told us about your "Fleeze" supplement. Since going on it some months ago, Tupp's itches have completely disappeared (within days actually), and we're confident fleas wouldn't dare come near her. The only thing we have noticed is that she doesn't like it in

her drinking water but happily takes it with her food, as you recommend. Many thanks for this great product. We've told a number of people about the product and wouldn't be without it!"
Colleen W (Diamond Creek)

JNT RELIEF PACK

"I would just like to say that my beautiful cat Aramis has struggled for a long time with arthritis in the hips and lower back and other areas. I have tried so many different products and therapies but since commencing with the **joint relief pack and the Technyflex** his movement is finally much improved and he can now manage to jump up and down and get around in the garden and inside much better than he has for the last 4 years. He even managed to get onto the top of the pergola which I don't think he has managed for about 5 years. In addition he is just so much happier in himself because he seems to be almost pain free now. I can't recommend this product highly enough. PS. I would also like to say thankyou to your lovely staff who are always very

professional, friendly and helpful. Thankyou very much from both of us? Cheers"
Cheryl and Aramis.

GREENPET ESSENTIALS

"For 2 weeks now my Yorkshire Terrier (Cha Cha) has been having this supplement in his raw food diet. I had in the past tried many products for his itch and even had an allergy test. Being such a fuss pot, he actually loves it. He doesn't scratch anymore and he's jumping out of his skin. Thank you and well done!"
G. E.

V.A.N JOINT SUPPORT TREATS

"Snoop" our dog was unlucky enough to have been born with weak joints. So after trying calcium supplements, tablets and various other products we have found the one! Not only does he love eating Dr. Bruce's joint support treats it has really helped with his quality of life. He is happy energetic and a lot more agile and mobile. It is fantastic to see that such a quality product exists that is Made in Australia and made by someone who really cares." M. T.

NEW VEGAN DOG FOOD

BIOPET VEGAN DOG FOOD

We now have another Vegan dog food which is made using high quality ingredients.

No artificial preservatives, colors or flavours added. Ingredients: Whole grains, malt, cereal meal, rice, field

peas, soybean meal, sunflower seed meal, green beans, maize gluten, wheat, vegetable oils, molasses, alfalfa, carrots, yucca, potato, seaweed meal, garlic, salt, vitamins, minerals and natural antioxidant.

Once again, we stock this as an occasional food or

to supplement a vegetarian dogs diet, but recommend feeding fresh food to dogs as often as possible. This can be a great stand-by if you don't have fresh meat on hand while travelling or if you forget to defrost the meat, etc..

Very economical at only \$9.95 per 1.25kg pack.

MORE FEEDBACK.....

COMPLETE MIX FOOD

"I am so happy with the Vets All Natural Complete Mix. Its easy to use, has everything my dogs need and I just add chicken necks. Its good to know there is no nasty additives. My oldest dog is 13 and he now has more energy and sometimes

acts like he is a puppy again. Thankyou" T.S.

HERBAL WRM TONIC

"This is a fantastic product I use for my dog and 2 cats. My weimaraner puppy had terrible skin reactions from vaccines and worming pills, and I am so happy to have found

a natural way to worm him instead of monthly chemicals - and now no more skin troubles. I recommend it to everyone, along with the heartworm tonic also." Z.M

SALT LICK ON ROPE

"My horses just love these, I've left other salt lick

products in the paddock and they just ignore them but this one they last for ages and are weather proof so you just leave them tied to the gate or fence and the horses get as little or as much as they want - brilliant!!" V.W

NEW BOOKS & CD'S
